

STONE CRAFT (PINK & BLUE) DINNERWARE

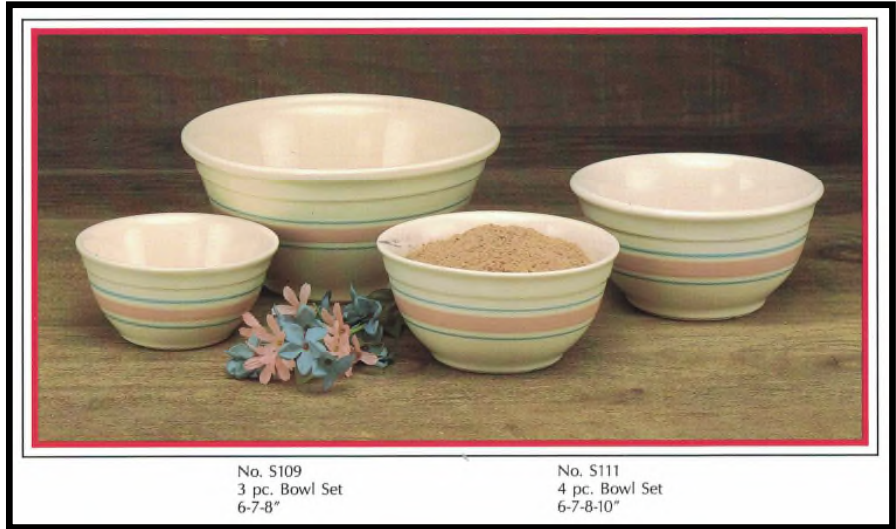

By Chiquita Prestwood

The Dinnerware Line of Stone Craft first showed up in the 1976 catalog being released for sale later in 1975. It was a very successful Line for McCoy Pottery as they sold it well into the 1980s. It was also called "Pink & Blue" in later years.

The following photos of some of the Stone Craft pieces are from the later years of production of the line. Many of the pieces will be easily recognized by their shape and design. However, there are a few pieces shown that are very uncommon and seemed a good idea to point those out.

All four of the pieces in the above image are hard to find items from the Line.
