

MEXICAN CHILI BOWL / UTILITY BOWL

By I. B. Chillin

This 6" Bowl was produced in 1968 by McCoy Pottery. It is certainly a functional size which could have a wide range of uses. The Bowl example pictured directly below is one of the McCoy made Bowls; note the shading style inside as well as the bottom marking; "Ovenware USA".

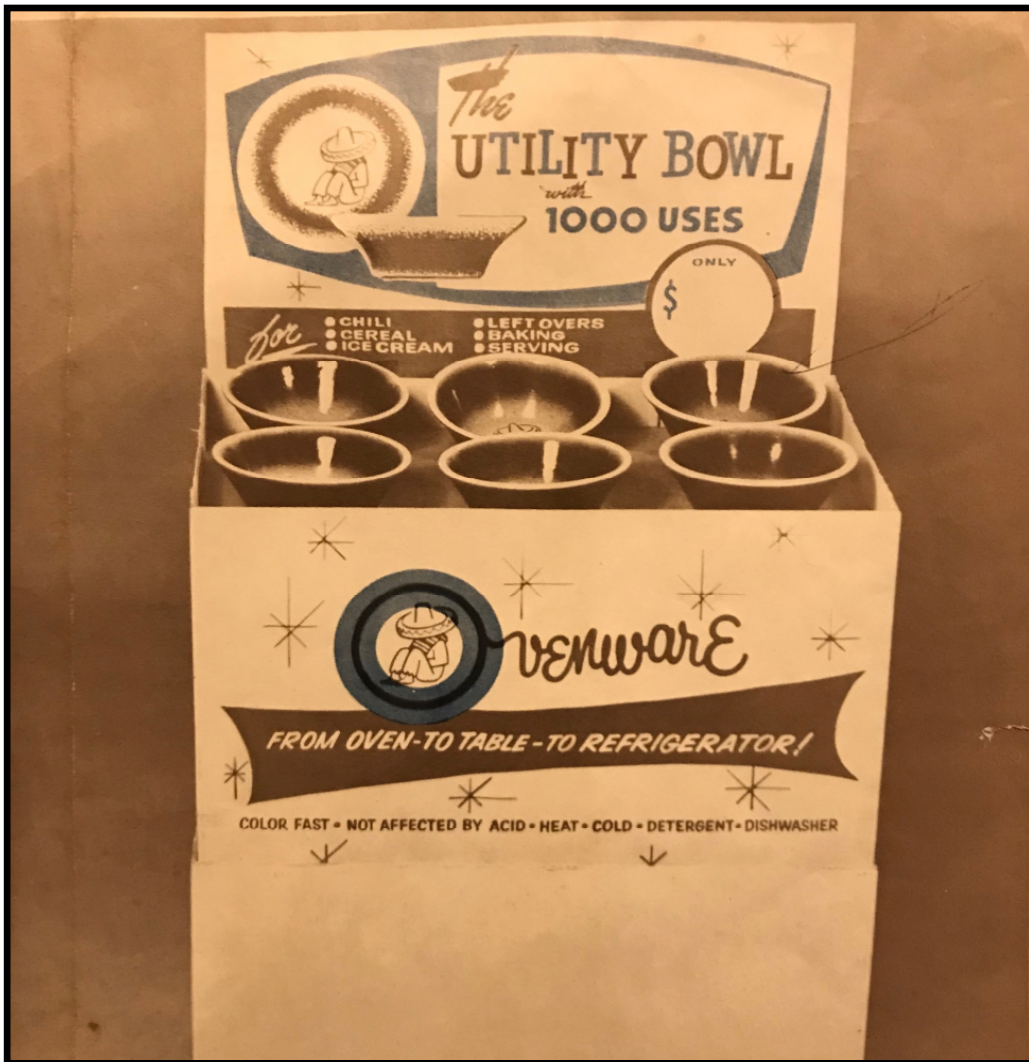

As you can see in this brief Price list line, it was described as a Mexican Chili Bowl. But in the Sales Display in the other photo image, the Bowl is described as "The Utility Bowl with 1000 Uses". These Bowls sold for 16 cents in quantities of 72!

9365	6"	Mexican Chili Bowl.....	.16		72	39 lbs.
------	----	-------------------------	-----	--	----	---------

Watt Pottery also made this Bowl. Coloring and shading are definitely darker than the McCoy Bowls. Theirs is marked "Watt Ovenware 603 USA".

Now you have something else to look for!!
