

CANDLE HOLDERS – DUAL PURPOSE

By I. M. Holdin

On these two pages, you will find two very colorful catalog pages of an extremely large offering of Candle Holder type products. What is very interesting for collectors, is how many of these do you have in your collection? Or how many have you ever seen? Most collectors likely have several on these pages they have never seen. Why is that? The usual probability is low sales or short-term sales but also, many might not carry the McCoy name so not recognized. Color versions of these pages will be dropped on the web site.
