

LAND O LAKES CONTAINER w/ LID

By Chiquita Prestwood

The photos below are of a Container with Lid that was made by Nelson McCoy Pottery for their contract customer Land o Lakes. The Indian Maiden Figure on the front was one of the logos they used at the time but at some point, in later years, they discontinued it.

The main body of the container is a beige/cream color with the upper rings and logo in a medium blue. The lid is completely blue. No marking on bottom.

Below right is an original sketch from the era and McCoy Pottery. The copy written on the sketch is: Rubber Stamp – cast cover - will send art work line at top - blue cover. We will likely never know if this sketch was something McCoy Pottery already had done as a concept or was it designed with a general product type Land o Lakes wanted. Just another fun story about what went on in the McCoy Pottery Business!
